

Dynamic Fabrication

For Sales, Purchasing, Production & Accounting
NetSuite Native | Built by Manufacturing Experts

WHAT IT DOES

Dynamic Fabrication handles multi dimensional inventory, multiple inputs and outputs, and full traceability from receipt through ship out. Built for fabricators who cut, slit, and combine materials, with dimensional available to promise and remnant tracking that standard NetSuite cannot do.

Key Features

DIMENSIONAL

- Dimensional ATP
- Length, width, gauge
- Lot and heat tracking
- Accurate on hand

CUT & SLIT

- Nesting logic
- Remnant tracking
- Scrap and drop yields
- Material cost accuracy

TRACEABILITY

- Receipt to ship out
- Lot record tied
- Revision tracked
- Audit ready

BEST FIT

- Sales
- Purchasing
- Production
- Accounting

WHY IT WINS

- NetSuite native build
- No third party tools
