

# Dynamic Work Orders

For Shop Floor Managers, Operators & Cost Teams  
NetSuite Native | Built by Manufacturing Experts

## WHAT IT DOES

Dynamic Work Orders gives the shop floor a streamlined single page interface with badging and scanning built in. Light to implement, quick to adopt, with no per user cost, so every operator can clock in, complete steps, and report production without slowing the line.

### Key Features

#### SINGLE PAGE UI

- Built for the floor
- Badge and scan ready
- Step by step flow
- Minimal training

#### FAST ADOPTION

- Light implementation
- Quick go live
- No per user cost
- Operator friendly

#### COST ACCURACY

- Real time labor data
- Accurate job costs
- Reduced rework
- True throughput

#### BEST FIT

- Shop floor managers
- Shop floor staff
- Cost accountants

#### WHY IT WINS

- NetSuite native build
- No third party tools
