

# Finite Capacity Planner

For Planners, Schedulers & Shop Floor Leaders  
NetSuite Native | Built by Manufacturing Experts

## WHAT IT DOES

Finite Capacity Planner brings reality based scheduling into NetSuite. Plan against real labor and machine constraints, visualize utilization with color coded dashboards, and run drag and drop what if scenarios. Identify bottlenecks before they hit the floor and keep promises without exporting to Excel.

## Key Features

### LIVE CAPACITY

- Work center view
- Day and hour data
- Real utilization
- Bottleneck alerts

### WHAT IF MODE

- Safe simulations
- Test before commit
- Model schedule changes
- Confident decisions

### AUTO OPTIMIZE

- Profile sequencing
- Fewer setup changes
- Reduced downtime
- Minimized changeovers

### BEST FIT

- Production planner
- Scheduler
- Shop floor

### WHY IT WINS

- NetSuite native build
- No third party tools
